The EPG ONE Checklist & Inspection solution is a mobile friendly SaaS application that provides visibility, transparency and insights into checklists, safety and quality inspections. Collect consistent data, standardize operations, train workers smarter. Automatically identify failed areas for faster issue resolution with this easy-to-use checklist and inspection solution. The solution can work offline as well and supports a cellular or wifi connection.

SAY GOODBYE TO PAPER. DIGITIZE YOUR TEAM'S WORK.

The EPG solution also delivers a unique mobile worker experience with the seamless integrated Lydia Voice. Eliminates cumbersome and outdated paper forms, ensure greater process consistency, and provide management with full transparency and feedback on activities. The EPG solution is available in three versions: Premium, Campus and Enterprise.

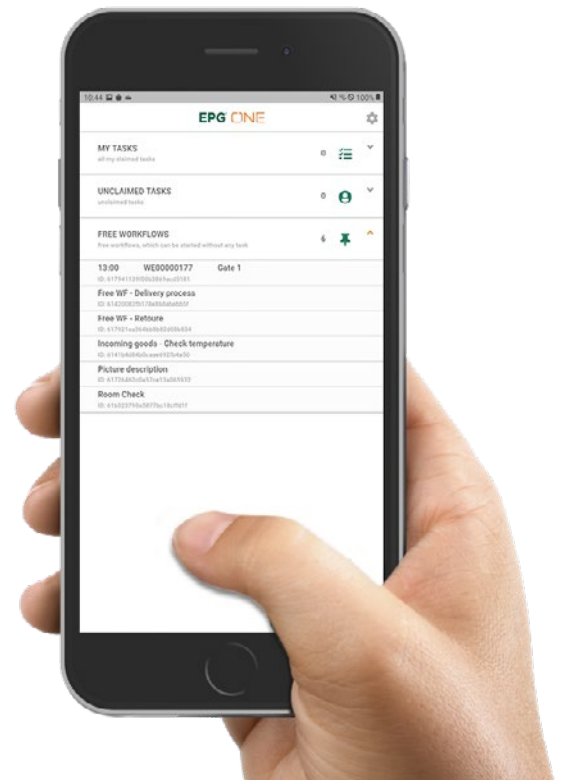

INTEGRATED LYDIA VOICE CAPABILITIES FOR A HANDS-FREE EXPERIENCE

TRANSFORM YOUR CHECKLIST AND INSPECTION OPERATION WITH LYDIA VOICE.

In today's world, documenting checklist and inspection processes continues to be inefficient. For most, the process still requires the worker to enter their observations and findings as a separate process from the actual inspection procedure. Voice technology introduced a 'Hands-Free, Eyes-Free' environment and has enabled leading businesses to elevate their documentation and compliance to levels never before attainable.

EPG and its best-in-class Lydia Voice solution are purpose-built for the checklist and inspection marketplace. By working with thought leaders in the industry, we have created a solution that enables companies to run a better business with voice.
